

Website Project Proposal – COMPE 561 – Spring 2022

Project Name: SDSU Mechatronics Food Delivery

Team Member Names: Tristan Richmond, Elisha Reece

Description of Pages to be Built:

Page 1: Home

- Login/Sign Up

Page 2: About

- Information about the service and organization

Page 3: New Order

- Select a restaurant from predetermined list

- Display items from menu and add to cart

Page 4: Check Out

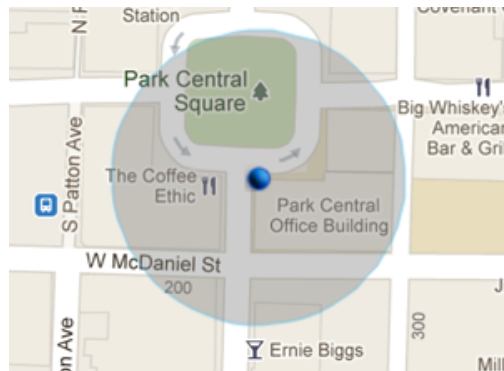

- Enter payment method for order

- Select delivery location & time

Page 5: Order Tracking

- Shows progression of order progress.

- Similar to pizza tracker, but contains geolocation of robot similar to google maps

Page 6: Stats (distance traveled, collisions avoided, deliveries made)

Display service wide details with data points regarding the success of the service

Page 7: Account Details

Display order history and change account settings

Page 8: Join the Team (Mechatronics ad/recruit page)

Information about joining our club and what Mechatronics is. Similar to a careers join us page
